Matt and Michael,

Could you review the Seminole consultation notes from a legal perspective, particularly on NHPA issues before we distribute to the larger group?

Whitney, Kelly – I’ve given the condensed version a very quick review, and I’m sorry, but I’m out of time today. I like the structure. I’m thinking there are things we can take out to streamline but wasn’t able to take a crack at it. I do think we need to run this by Matt and Michael at least for the NHPA parts and legal perspective – can you coordinate? The goal is really to capture key concerns and action items, not necessarily the response on every item.

Thank you,  
Rosemary

Hi Rosemary,

See attached for the full and condensed summary- the condensed summary could take a different format, but I’ve marked what’s a “Question” vs. “background” vs. “EPA response” vs. “follow-up” in case there’s a category you and Jeaneanne don’t want to keep, then you can just delete all the bullets with that category name.

Hopefully that helps with the process! You might also decide to delete questions that don’t require any follow-up, although there’s always the chance the tribe heard some follow-up.

Best,  
Whitney
